EXPERIENCE

Software Engineer   June 2023 – Present
WisdmLabs   *Pune, Maharashtra*

○ Core member of the **Moodle team**; contributed to developing and enhancing custom **Moodle plugins and themes**.

○ Led frontend development for **Edwiser PageBuilder** and built the **WhatsApp Notifications** plugin independently.

○ Designed backend features like **Course Discovery Filters** and **Setup Wizard** for improved onboarding.

○ Achieved **100% performance score** each quarter; awarded **Rising Star** for technical excellence.

○ Reduced average client support time by **5 hours**, enhancing response efficiency.

○ Mentored interns and maintained the company's live **demo site**.

○ Delivered live demos, handled client queries, and provided technical support.

○ **Tech Stack**: TML, CSS, SCSS, JavaScript, jQuery, PHP, Node.js, Express.js, MySQL, PostgreSQL

Full Stack Developer Intern   Mar 2022 – Nov 2022
KnockOnce - Complete Digital Solutions   *Bengaluru, India*

○ Developed two food delivery apps: **ZooD** and **Bater-Mate** using React.js and Node.js.

○ Added and modified core functionalities in several existing projects.

○ Contributed to a major group project, **Zaio Online Learning App**, completing **5–6 small tasks** and **4–5 larger tasks**.

○ **Technologies used**: Bootstrap, React.js, Node.js

PROJECTS

TechNotes4U – Technical Blog & Learning Platform   [technotes4u.com ☑]

○ Developed a feature-rich blogging platform with **Google and credentials-based authentication**, profile management, and email verification.

○ All users can create and manage blogs; only **admins can publish**.

○ Designed parent-child blog structure with **search, filter, and sort** functionalities for easy navigation.

○ Integrated two editors: **MDX with reusable components** and a **Rich Text editor** with image support.

○ Added blog interactions: **likes/dislikes**, threaded **comments (2-level replies)**, and distraction-free **Content Mode**.

○ Built an **Admin Panel** to manage blogs, users, publish/delete requests, and view analytics.

○ Implemented optimized image handling with light/dark mode icons and centralized management.

○ Technologies used: **Next.js, Node.js, Express.js, PostgreSQL, Tailwind CSS, TypeScript, JavaScript**

Shan Tailors - Tailoring website for local shop   [shantailors.in ☑]

○ Developed a full-stack platform with **secure authentication**, role-based access, and responsive UI.

○ Built admin tools for managing **designs, categories, pricing, and user activity**.

○ **Technologies used: Next.js, Tailwind CSS, PostgreSQL, TypeScript, Node.js, Express.js**.
